Subject: Potential Weston CHP Support for NY Radiation Sites

Eric,
Per our conversation, I spoke with Bob Schoenfelder (Weston CHP) and he is experienced in assisting EPA Risk Assessors with the evaluation of radiation Sites. Bob has a good amount of experience conducting these types of activities, specifically in EPA, Region 6. In addition, I am not sure about which four Sites you are referencing in NY but Bob has had experience working on the following NY Sites through the Weston Region 2 SAT contract:

- Holy Trinity Cemetery
- Canadian Radium and Uranium
- Niagara Falls
- Upper Mountain

If these are the Sites in question the fact that he is already familiar with the background and specifics of each Site would enable him to be well ahead of the game if the support is requested by the RAB. Along with Bob, Weston has several other CHPs and additional resources with a wealth of knowledge in the evaluation of radiation Sites so if the need arises for support please let me know.

Thanks,

Timothy Benton, CHMM
